COMPETTIVE PROGRAMMING

OVERVIEW

Competitive Programming is an **Exclusive FASTians-only showdown** testing logic, creativity, and coding mastery.

This year's batch-wise battles lead to a **Grand Finale** through an auction-style draft.

Face algorithmic challenges, race against time, and prove your dominance — **the clock is ticking**

COMPETITION DETAILS

Team Size:

Batch Qualifiers: 2–3 members per team

Finale: Teams formed through the Auction War

Rounds:

Round 1: Batch Qualifiers

Round 2: Grand Finale

Platform:

Virtual Judge

COMPETITION RULES

- **Penalty:** As per ICPC standards — total time = time of correct submission + 20 minutes × number of wrong attempts.
- **Internet Access:** Allowed only for code submission.
- **Templates:** Coding templates are allowed and encouraged.
- **Allowed Languages:** C, C++, Java, Python.

COMPETITION FORMAT

1. BATCH QUALIFIERS

Only FASTians can participate.

Competitors from each batch face off in a **1-2 hour** coding challenge, featuring **3-5 algorithmic problems**.

The Top Four Teams from each batch will qualify for the next stage.

2. THE AUCTION WAR

House Captains enter the arena to bid on individual participants from the qualified teams, assembling their Final House Teams through strategic picks.

3. THE GRAND FINALE

The newly formed House Teams compete head-to-head in a **High-Stakes Final Showdown** to determine which House reigns supreme.

CONDUCT AND FAIR PLAY

- **Mobile Phones:** Must be submitted to the contest coordinator (one sealed zip bag per team).
- **Collaboration:** Inter-team collaboration or discussion is strictly prohibited and will lead to disqualification.
- **Edibles:** Not allowed in the competition venue.
- **Punctuality:** Teams must arrive on time; the contest will start at the scheduled time.
- **Organizer Rights:** The organizers reserve the right to modify rules or competition parameters in case of unforeseen challenges or technical issues.

DISQUALIFICATION CRITERIA

A team will be immediately disqualified for:

- Plagiarism or using pre-written solutions.
- Accessing the internet for unapproved purposes.
- Misconduct or disturbance with invigilators or fellow teams.
